PROFESSIONAL SUMMARY

Results-driven **Senior Frontend Developer** with **6+ years** of industry experience architecting and delivering scalable, high-performance web applications for global clients. Shipped **10+ production-grade WordPress themes** — now live on VWThemes.net and ThemeShopy.com with **50,000+ cumulative downloads**. Proficient across the full MERN stack (MongoDB · Express.js · React.js · Node.js), with deep expertise in WordPress, Shopify, PHP, and modern JavaScript (ES6+). Proven track record of **leading cross-functional development teams**, converting complex Figma/PSD designs into pixel-perfect responsive interfaces, and reducing client support overhead by **40%** through structured technical documentation. Actively seeking a senior development role in Nagpur to apply full-stack JavaScript expertise in a product-driven environment.

TECHNICAL SKILLS

Frontend Development	HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, jQuery, Bootstrap 5, Tailwind CSS
Backend Development	Node.js, Express.js, PHP, RESTful API Design & Integration
Database Management	MongoDB, MySQL, CRUD Operations, Data Modelling
CMS & E-commerce	WordPress (Theme & Plugin Development), Shopify (Liquid Templates), WooCommerce
DevTools & Workflow	Git, GitHub, Postman, Figma, VS Code, CI/CD Fundamentals
QA & Testing	Cross-browser Testing, Theme Check, Theme Sniffer, Responsive Design QA
Design	Adobe Photoshop, PSD-to-Web Conversion, UI/UX Principles
Soft Skills	Team Leadership, Technical Documentation, Client Communication, Problem Solving

PROFESSIONAL EXPERIENCE

Senior Frontend Developer

Mar 2018 – Dec 2024

Vowelweb LLP | Nagpur, Maharashtra

- **Delivered 10+ production-ready WordPress themes** (VW Automobile, VW E-Commerce, VW Job Board, VW Nutritionist Coach, VW Gardening & Landscaping, Musician Band Artist, Multivendor Marketplace) — published on VWThemes.net and ThemeShopy.com, generating **50,000+ downloads** across the global WordPress marketplace.
- **Led and mentored a 4-person frontend development team** through end-to-end theme delivery cycles — PSD conversion → development → QA → launch — reducing average project turnaround by **25%** through Agile sprint planning and structured code review processes.
- **Converted 30+ complex Figma/PSD designs** into fully responsive, cross-browser-compatible WordPress websites using HTML5, CSS3, Bootstrap, and PHP — achieving a **sub-2% post-launch defect rate** via systematic Theme Check and Theme Sniffer QA protocols.
- **Engineered 8+ custom Shopify storefronts and Liquid templates** for international e-commerce clients, integrating payment gateways, third-party APIs, and dynamic product filtering to improve checkout conversion rates.
- **Authored and maintained comprehensive technical documentation** for 10+ WordPress themes, reducing repeat client support queries by **40%** and enabling a scalable self-service support model that freed 30% of team capacity for new feature development.

- **Ensured 100% WordPress.org submission compliance** across all product releases by implementing automated QA pipelines using Theme Check and Theme Sniffer, eliminating manual review bottlenecks.
- **Collaborated with UI/UX designers and backend engineers** using Git-based version control workflows, conducting regular code reviews and enforcing coding standards across a team of 4 developers.

MERN Stack Developer

Dec 2024 – Jan 2026

Ambe AI Technologies Pvt Ltd | Nagpur, Maharashtra

- **Architected and shipped a full-stack Note Management Application** on the MERN stack (MongoDB · Express.js · React.js · Node.js) with JWT-based authentication, role-based access control, RESTful API integration, and real-time CRUD operations — deployed end-to-end.
- **Developed a feature-rich Task Manager Application** using React.js with drag-and-drop task prioritisation, multi-label categorisation, deadline tracking, and a Node.js/Express.js backend with MongoDB for persistent data storage.
- **Designed and implemented a scalable, reusable UI component library** with Bootstrap 5 and CSS3 — ensuring cross-device compatibility across mobile, tablet, and desktop viewports, and conforming to WCAG accessibility guidelines.
